

Bright Star to Super Star

Belt conversion chart

When Bright Stars (5 – 8yo) turn 9, they move up to Super Stars. This means that the next time they are eligible to grade, they will grade from a Bright Star belt (white stripe) to a Super Star belt (black stripe).

Important note: This chart is **indicative only**. The Super Star belt that a Bright Star moves to depends on several factors like their physical development and maturity. Grading to a Super Star belt requires a student to fulfil the requirements for that belt. For example, grading to a Super Star blue belt requires a student to demonstrate multiple defences 1 and 2 confidently.

Ultimately, Arrow Martial Arts instructors have a final say in which belt levels students grade to.

Current Bright Star belt	grades to this Super Star belt
White	Yellow
Yellow	Green
Green	Green
Blue	Green
Orange	Blue
Brown 1 and 2	Blue
Red 1 and 2	Blue
Purple	Orange
